PROFILE

Fresh graduate with a Bachelor's degree in Informatics from Universitas Gunadarma, passionate about Front-End Web Developer. Skilled in building end-to-end web applications from frontend interfaces with React.js, Next.js, and JavaScript, to backend systems using PHP, Laravel, Node.js, and RESTful APIs. Enjoys solving real-world problems through technology and continuously learning modern web development practices.

EDUCATION

UNIVERSITAS GUNADARMA

Bachelor of Informatics

- IPK: 3.79/4.00

(Expected)

2022 – 2026

Pondok Cina. Beji. Depok. Jawa Barat

SMA SEJAHTERA 01 DEPOK

Science Major (IPA)

- Nilai: 86

2019 – 2022

Jl. Anelir Raya. Pancoran Mas, Jawa Barat

TRAINING & CERTIFICATIONS

JavaScript Programming Language Fundamental

Universitas Gunadarma

09/2024

Completed training on JavaScript fundamentals including variables, data types, control structures, arrays, loops, and object-oriented programming concepts.

GO-LANG FOR INTERMEDIATE

Universitas Gunadarma

02/2025

Completed a training program on fundamental desktop programming concepts including introduction to programming, Delphi components, control structures, Visual Basic .NET applications, Java basics, and Oracle PL/SQL fundamentals.

Basic Web Application Design

Universitas Gunadarma

09/2025

Sertifikat ini menunjukkan bahwa peserta telah mengikuti pelatihan dasar perancangan aplikasi web, mencakup pengenalan aplikasi berbasis web, analisis sistem, desain database, desain antarmuka pengguna, serta implementasi menggunakan PHP dan XAMPP. Pelatihan ini memberikan fondasi penting bagi peserta untuk memahami proses perancangan dan pengembangan aplikasi web secara terstruktur.

Basic Web Application Development

Universitas Gunadarma

05/2026 – 06/2026

Sertifikat ini menunjukkan bahwa peserta telah mengikuti pelatihan dasar dalam pengembangan aplikasi web, mencakup pengenalan tools, perancangan sistem, implementasi database dan antarmuka pengguna, serta penerapan konsep ke bahasa pemrograman. Pelatihan ini dirancang untuk memberikan fondasi awal bagi peserta agar mampu memahami dan membangun aplikasi web sederhana secara terstruktur.

PROJECT EXPERIENCE

Scholarship Information Chatbot

AI Chatbot using RAG and Large Language Models

05/2026 – 08/2026

- Developed a web-based scholarship information chatbot using Laravel 12, PHP, Blade, Tailwind CSS, and JavaScript
- Integrated Google Gemini API via OpenRouter with Retrieval-Augmented Generation (RAG) and semantic search
- Implemented vector database using Supabase for scholarship knowledge retrieval
- Built an admin dashboard for managing scholarship data

SapaCoffee Inventory Management System

Web Programmer | BNSP Junior Web Programmer Competency

06/2026

Assessment

- Developed SapaCoffee, a web-based Inventory Management System using Laravel 12, PHP, MySQL, Blade, Tailwind CSS, and JavaScript, as part of the BNSP Junior Web Programmer competency assessment
- Implemented inventory tracking with product and category management
- Built stock transaction (in/out) tracking and user management with authentication
- Generated PDF/Excel reports for inventory data

Product & Inventory Management System <i>Student Project FullStack Web Developer</i> - Developed a web-based Product and Inventory Management System using CodeIgniter 4, PHP, MySQL, Bootstrap, HTML, CSS, and JavaScript, following the MVC architecture - Implemented CRUD operations for products and categories, including image upload and search/filtering - Built stock in/out transaction tracking to monitor inventory movement - Generated PDF and Excel reports for inventory data	05/2026
Proyek Pengembangan Website Kelurahan Kelapa Dua Wetan Jakarta Timur <i>UI/UX Designer & FrontEnd Developer Government Website Project</i> - Designed UI/UX for a government service website using Figma. - Created user flow, wireframes, and interactive prototypes. - Collaborated with developers to ensure responsive and user-friendly interface implementation.	08/2025 – 01/2026
Wedding Planner Booking Website <i>FullStack Web Developer Laravel</i> - Developed a wedding planner booking web application using Laravel 12, PHP, Blade, Bootstrap, and MySQL - Built an admin dashboard for managing wedding service packages, orders, and bookings - Implemented CRUD functionality for wedding service packages and booking transactions	09/2025 – 09/2025
TrashTracker Website <i>FullStack Web Developer React.js & Laravel</i> - Developed a web-based waste reporting platform using React.js, Laravel, PHP, MySQL, and Leaflet.js - Integrated GPS-based location tracking and interactive maps for real-time waste report visualization - Implemented photo upload with Cloudinary for report evidence - Built an admin dashboard for verifying reports, managing status (pending/processed/rejected/approved), and adding comments - Developed RESTful APIs to support efficient data exchange between the frontend and backend - Implemented PDF export for report data	03/2025 – 07/2025
Simple Notes Web App <i>FullStack Web Developer React & Node.js</i> - Developed a note-taking web application with a React.js frontend and Node.js/Express backend, using MySQL as the database - Implemented real-time CRUD functionality (create, read, update, delete) for managing personal and academic notes - Built note categorization with color-coded labels, along with a search feature for quickly finding notes - Designed navigation views for Recent, Oldest, and Upcoming notes - Implemented a Trash feature, allowing deleted notes to be restored instead of permanently removed - Developed RESTful APIs to support efficient data exchange between frontend and backend	12/2024 – 01/2025
Library Management Web App <i>FullStack Web Developer Next.js</i> - Developed a Library Management web application using Next.js - Implemented CRUD functionality and RESTful API for book data management - Designed a responsive and user-friendly interface to improve usability	10/2024 – 10/2024

SERTIFIKASI

Belajar Dasar Visualisasi Data	📄 — Dicoding, Berlaku hingga Juli 2027, Nomor Sertifikat: QLZ9703LDP5D
Belajar Dasar Pemrograman Web	📄 — Dicoding, Berlaku hingga Desember 2027, Nomor Sertifikat: 2VX34Q1RJZYQ
Belajar Dasar Structured Query Language (SQL)	📄 — Dicoding, Berlaku hingga Juli 2027, Nomor Sertifikat: NVP7Q660VZRO
Belajar Membuat Front-End Web untuk Pemula	📄 — Dicoding, Berlaku hingga Desember 2027, Nomor Sertifikat: 81P240VMNZOY

SKILLS

Hard Skills

- Languages & Frameworks: JavaScript, PHP, React.js, Next.js, Vue.js, Node.js, Laravel
- Database: MySQL, PostgreSQL, Supabase
- Tools & Others: RESTful API, Git, Figma, Leaflet, Unit Testing

Soft Skills

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Communication
- Adaptability & Fast Learning
- Time Management
