ZULFA AULIA HANAFI

Front-End Web Developer

zulfaaulia246@gmail.com | +628979437331 | Depok, Jawa Barat | GitHub | LinkedIn | Portfolio

PROFILE

Informatics graduate from Universitas Gunadarma with a strong focus on front-end web development. Proficient in building responsive, interactive, and user-friendly web interfaces using React.js and JavaScript. Experienced in integrating RESTful APIs, implementing authentication flows, and collaborating with back-end technologies such as PHP, Laravel, and Node.js. Also experienced in developing full-stack applications, including admin dashboards and an AI-powered chatbot using Retrieval-Augmented Generation (RAG). Passionate about creating intuitive user experiences and maintainable web applications.

TECHNICAL SKILLS

- Front-End: JavaScript, React.js, HTML, CSS, Tailwind CSS, Figma
- Back-End: PHP, Laravel, Node.js, Express.js, Python, RESTful API
- Database: MySQL, PostgreSQL, Supabase
- Tools & Others: Git, Leaflet.js, Cloudinary, Gemini API (RAG)

PROFESSIONAL EXPERIENCE

Otoritas Jasa Keuangan (OJK), *Intern, Logistics Department* Jun 2026 – Aug 2026
Jakarta, Indonesia

- Executed User Acceptance Testing (UAT) of the SI-PROJEK procurement system and documented findings
- Evaluated the SI-PROJEK interface and proposed UI improvements
- Designed 9 flyers, posters, and infographics to socialize SIPENA, SI-PROJEK, and LOGIN features

PROJECT EXPERIENCE

Scholarship Information Chatbot Website , May 2026 – Aug 2026
AI-Powered Web Application | Laravel, Python & RAG

- Developed a web-based scholarship chatbot using Laravel 12, Blade, Alpine.js, and Tailwind CSS, implementing Retrieval-Augmented Generation (RAG).
- Integrated Google Gemini API via OpenRouter with semantic search and vector embeddings using Supabase PostgreSQL.
- Developed Python scripts for scholarship dataset processing, embedding generation, and data validation.
- Built an admin dashboard for managing scholarship data.

SapaCoffee Inventory Management System , Jun 2026
Web Programmer | BNSP Junior Web Programmer Competency Assessment

- Developed an inventory system using Laravel 12, Blade, MySQL, and Tailwind CSS (via Vite) with product and category management
- Built stock in/out tracking, user authentication, and interactive UI components (modals) with vanilla JavaScript, plus PDF/Excel inventory reports

LAMAS KDW - Kelurahan Kelapa Dua Wetan Website , Aug 2025 – Feb 2026
System Analyst | Government Website Project

- Authored the SRS (user stories, acceptance criteria, functional and non-functional requirements) using the RAD methodology
- Modeled the system with BPMN, class diagrams, and a relational MySQL database design
- Designed the architecture (Next.js, Laravel REST API, MySQL) and Figma UI prototypes
- Designed a tiered reporting workflow (resident, RT/RW, village office) with automated email notifications and an AI chatbot

TrashTracker Website , *Web Developer | React.js & Laravel* Mar 2025 – Jul 2025

- Developed a waste reporting platform featuring interactive maps with Leaflet.js and GPS-based location detection.
- Built RESTful APIs using Laravel to connect the React.js frontend with a MySQL database.
- Implemented photo uploads via Cloudinary and an admin dashboard for report verification, status updates, comments, and PDF export.

EDUCATION

UNIVERSITAS GUNADARMA, *Bachelor of Informatics* 2022 – 2026
- GPA: 3.79/4.00

SMA SEJAHTERA 01 DEPOK, *Science Major* 2019 – 2022

TRAINING & CERTIFICATIONS

Basic Web Application Development , *Universitas Gunadarma* May 2026

JavaScript Programming Language Fundamental , *Universitas Gunadarma* Sep 2024

Belajar Membuat Front-End Web untuk Pemula , *Dicoding* Des 2024
